

Parents,

Your child attends a building within Bath Local Schools that receives federal money in the form of Title I. As a parent you may request information regarding the professional qualifications of your child's classroom teachers and paraprofessionals, including:

- State qualification and licensing criteria
- Is the teacher teaching under emergency or temporary status
- The teacher's baccalaureate degree major, graduate certification, and field of discipline
- Whether your child is provided services by a paraprofessional and if so, their qualifications.

If you wish to seek such information, you must follow the board adopted policy to review such records. This policy is available in each of the buildings and at the administrative office.
